

Deepthi Reddy Bhimavarapu

Hyderabad | +91 7673955104 | bhimavarapudeepthireddy18@gmail.com | www.linkedin.com/in/deepthi-reddy-sde

Professional Summary

Full Stack Developer with 2+ years of experience building scalable enterprise applications using React.js, ASP.NET Core, FastAPI, and PostgreSQL. Experienced in secure APIs, microservices, Azure cloud deployments, and AI integrations including OpenAI, embeddings, and RAG workflows. Skilled in CI/CD, Docker, Agile, GitHub Copilot, and Cursor.

Technical Skills

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend	C#, ASP.NET Core, FastAPI, Python
AI & Automation	OpenAI API Integration, RAG Concepts, Emsbeddings, Vector Search, Prompt Engineering
Database	PostgreSQL, Azure Database for PostgreSQL, Query Optimization, Indexing
Cloud & DevOps	Microsoft Azure (App Services), Docker, CI/CD Pipelines, GitHub Actions
Tools & Practices	REST APIs, Microservices Architecture, RBAC, JWT Authentication, Agile, GitHub Copilot, Cursor AI

Professional Experience

Full Stack Software Developer

Daimler India Commercial Vehicles - Chennai | Jun 2024 - Present

- Developed enterprise workflow automation applications using React.js, ASP.NET Core, and PostgreSQL for 500+ internal users, including dashboards, approval workflows, and audit logging features.
- Designed and implemented 25+ secure REST APIs with JWT authentication and role-based authorization.
- Improved API and reporting performance by 35% through query optimization, indexing strategies, and backend refactoring.
- Contributed to migration of legacy modules into microservices-based architecture, improving scalability and deployment flexibility.
- Collaborated in Agile sprints using Azure DevOps for CI/CD and release management, while leveraging GitHub Copilot and AI-assisted tools to accelerate development.

Application Developer Trainee

Pragati FinServ Pvt Ltd - Hyderabad | Jan 2023 - Jun 2023

- Developed responsive web applications using ASP.NET MVC, React.js, and PostgreSQL
- Built reusable UI components and integrated frontend with backend services via RESTful APIs
- Implemented TypeScript best practices, reducing runtime errors by 25%
- Assisted in database schema design and query optimization for high-volume transaction systems

Projects

Enterprise HR Assistant | Full Stack Application

Tech Stack: Next.js, FastAPI, OpenAI APIs, PostgreSQL, ChromaDB

- Developed an enterprise AI-powered HR assistant for querying policies, onboarding documents, and internal knowledge bases using natural language.
- Implemented RAG workflows with document chunking, embeddings, and vector search for contextual information retrieval.
- Integrated OpenAI APIs and built scalable FastAPI services with secure APIs, role-based access, and conversation logging.
- Optimized document indexing and retrieval pipelines for efficient search across large enterprise datasets.

AI-Powered Job Seeker Portal

Tech Stack: Next.js, FastAPI, OpenAI APIs, PostgreSQL, Azure

- Developed a POC AI-powered recruitment platform using Next.js, FastAPI, and PostgreSQL.
- Implemented resume parsing, semantic job matching, and RAG-based recommendations using OpenAI embeddings and vector search.
- Built secure authentication and role-based user management modules.

Deployed containerized services on Azure App Services with CI/CD integration and optimized PostgreSQL performance for scalable search workflows

Education

B. Tech - Electronics & Communication Engineering | 2019 - 2023 | ICFAI Foundation for Higher Education, Hyderabad
